

DR501 DIGITAL SATELLITE

SHAPE YOUR FUTURE

DMX can create and enhance your business image and help you connect with your customers using the most powerful, convenient music and message marketing system available today. With DMX music via direct satellite you have access to expertly designed, commercial-free music, seamless message marketing playback, comprehensive management controls, and advanced digital technologies.

PROFESSIONAL PROGRAMMING

Using a combination of art and science, our talented music designers create music styles specific to your particular business environment and clientele. DMX's professionally designed music, unlike radio or CDs, allows you to create and maintain your own unique atmosphere. No competitor advertisements, no DJ chatter and each song flows seamlessly into the next.

UNPARALLELED CHOICE

DMX utilizes one of the world's largest music libraries to bring you incomparable variety. More than 100 channels represent a wide variety of music styles to enable you to accurately target your customers and support special promotions, themes and holidays.

MAXIMUM IMPACT

DMX delivers a complete system for your success with our built-in message marketing option. Maximize the moment of contact with customers using the combined power of music and message marketing to educate customers on product and service offerings, influence purchases and provide quality customer service. Our proprietary software directs your system to play a specific message at the scheduled time for live broadcast.

- **Over 100 Music Programs**
- **Reliable On-Site Technology**
- **Management Controls & Lock Out**

MANAGEMENT CONTROL

DMX puts you in charge of your environment with a comprehensive set of management tools. You can automatically select channels or block out channels you consider unsuitable. Our "dayparting" feature lets you change music with the time of day or day of week to support your need to cater to a changing clientele. With "multi-zoning" expansion you can add multiple DR501 receivers to allow you to specify different music for different areas within a single business location.

DIGITAL EXCELLENCE

DMX broadcasts all digital satellite music programs from our state-of-the-art Worldwide Origination Center in Denver, Colorado. Highly trained engineers and technicians ensure uninterrupted transmission to all your locations, 24/7. All you need is the DMX commercial grade digital satellite receiver and rooftop antenna connected to your own stereo or monaural amplifier system, and you're ready to go.

DMX knows music better than anyone. And we know how to use it to build and brand your business.

DR501 DIGITAL SATELLITE
