10,000 SF: ScentVent

AccScent™ (100 SF to 1,500 SF)

The AccScent is the first commercial grade scent machine designed to be visible in small spaces. The AccScent is a beautiful, decorative wood box with a miniaturized version of the industry standard WhisperScent inside. It is small, quiet, yet powerful. The machine has two controls offering variable adjustability.

ACCSCENT SPECS

12V DC 40 CFM 2000 RPM 1.5 Amps 40 Watts
Controls: Top Mounted, Heat and Scent Controls
Power Cord: Black, 6', 120V to 12V DC Adapter (included)
Specifications: Shipping Weight 9 lbs.
Dimensions: 6"D x 9"W x 5"H
Scent Cartridges: Uses 1 Size 4 x 2½ x 1
Noise: 30 db

WhisperScent™ (1,500 SF to 3,000 SF)

The WhisperScent machine features an extremely quiet, ultra high quality fan. When our patented scent cartridges are heated, they release their scent as a vapor. The high output fan efficiently and silently disperses the scent evenly across the space. The two variable controls allow for precision control over the rate at which the scent is released. One adjusts the fan and the other the amount of scent.

WHISPERSCENT SPECS

120V 120 CFM 2000 RPM .72 Amps 80 Watts (Hi setting)
Controls: Top mounted rotary dial switches
Power Cord: Black, 6', 3-conductor, SJT type
Specifications: Shipping Weight 8 lbs.
Dimensions: 5"D x 8-1/2"W x 8"H
Scent Cartridges: Uses 1 Size 4½ x 2½ x ¾
Noise: 40 db

ScentVent™ (3,000 SF to 10,000 SF)

This unique 3-speed, pivoting-fan scent machine has 5 times more output on its lowest setting than the WhisperScent, and is 10 times stronger on its highest setting. The unique scent cartridges are placed in the scent chamber by the air intake, where they are heated so the scent can be drawn effectively through the machine. The ScentVent also works well in a protected outdoor environment.

SCENTVENT SPECS

Motor 3-speed, 1/16 HP
120V 2181 CFM 1475 RPM .80 Amps 90 Watts
Controls: Side mounted rotary dial switch
Power Cord: Black, 10', 3-conductor, SJT type
Specifications: Shipping Weight 10.1 lbs.
Dimensions: 11-1/2"L x 9-1/4"W x 11-1/4"H
Scent Cartridges: Uses 1 Size 6 x 2½ x 1
Noise: 60 db

ScentSticks™ (Spot Scenting)

Designed for small areas (approximately 10 ft² x 10 ft²) that require scenting, DMX scent sticks are the ideal solution for "spot scenting" specific areas of an environment. Examples of use may include rest rooms, dressing rooms, elevators, kitchens, hotel rooms, living rooms, small retail areas, or marketed properties. The DMX Scent Sticks can be introduced into an environment in several ways: mounted with a clip that allows for discrete, flexible placement; placed in a specially designed stand; integrated as part of another display or decoration; or any other creative way you desire.

SCENT DELIVERY

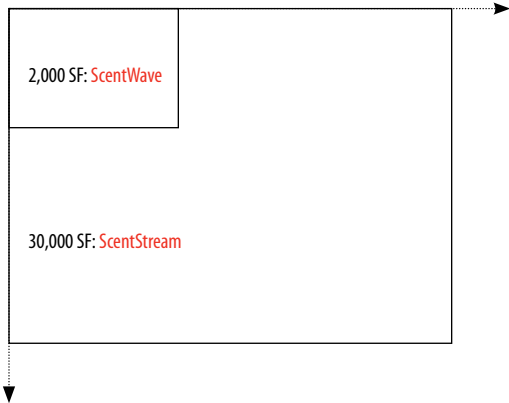

ScentWave

ScentStream SX1010

ScentStream SX5020

ScentWave™ (Up to 2,000 SF)

The ScentWave scent delivery system is ideal for creating ambient scent experiences in any environment. It uses a dry-air technology that releases fragrance without sprays, aerosols or messy oils. Adjustable duration and intensity settings and built-in 24-hour timer make it easy to customize the scent output for any environment. The ScentWave offers multiple installation options and is easy to maintain.

SCENTWAVE SPECS

- Dimensions:** 8.5" L x 6.3" W x 7.25" H
- Weight:** 2.0 pounds; 3.75 pounds with 1040 cartridge
- Coverage:** Up to 2,000 square feet with 1040 cartridge
- Variable Airflow Control:** 10 to 40 cubic feet per minute
- Variable Fan Cycle Timers:** 15 sec. ON/OFF min, 180 sec. ON/OFF max
- Day Timer:** 24-hour day timer with two event settings
- Motion Sensor:** Up to 25 feet with 30 degree radius
- Power Consumption:** 7 watts
- Power Requirements:** 12V DC, supplied with 110V AC power adapter with 6 ft. cable (UL/CE listed)
- Auxiliary Power Out:** 12V DC

ScentStream SXD1010 (Up to 300,000 SF)

The ScentStream is ideal for creating ambient scent environments in large business settings. The advanced diffusion technology releases fragrance into existing heating and air conditioning ventilation systems without sprays, aerosols or heated oils. Adjustable duration and intensity settings make it easy to customize the scent output for any environment.

SCENTSTREAM SX1010 SPECS

- Dimensions:** 8.5" L x 6.3" W x 7.25" H
- Weight:** 15 pounds
- Coverage:** Up to 300,000 cubic feet
- Variable Output Control:** Up to 30,000 CFM air handler
- Manual Cycle Time:** 2–10 minute ON and OFF cycles
- Multi-nozzle Compatibility:** Up to 2 nozzles per system
- Power Consumption:** 2.5 amps
- Power Requirements:** 110V AC grounded plug

ScentStream SXD5020 (Up to 300,000 SF)

The ScentStream is ideal for creating ambient scent environments in large business settings. The advanced diffusion technology releases fragrance into existing heating and air conditioning ventilation systems without sprays, aerosols or heated oils. Adjustable duration and intensity settings make it easy to customize the scent output for any environment.

SCENTSTREAM SX5020 SPECS

- Dimensions:** 8" W x 10" H x 6.75" D
- Weight:** 15 lbs.
- Coverage:** Up to 300,000 cubic feet
- Variable Output Control:** Up to 30,000 CFM air handler
- Manual Cycle Time:** 2–10 minute ON and OFF cycles
- Multi-nozzle Compatibility:** Up to 2 nozzles per system
- Power Consumption:** 2.5 amps
- Power Requirements:** 110V AC grounded plug
